NOTE FOR: Director of Security

SUBJECT : [] - Access to Agency Utilized
Building

Bob:

STATINTL

Your proposed letter to [] is considered to be too abrupt. Both John McMahon and [] OGC, looked at [] letter and feel that he has had help in preparing it, perhaps by a lawyer. John feels it well could be a provocation. Perhaps something along the following lines would be more appropriate:

"The Director of Central Intelligence has referred to me your letter of 16 December 1975 regarding access to a building utilized by this Agency. I am sure you can appreciate the sensitivity of our work, and why it is necessary to establish a policy limiting access to our offices. I regret, therefore, that we cannot grant your request for access to 4600 Fairfax Drive as a member of the char force."

Director, Central Intelligence Agency
Washington, D. C. 20505

Re: Escorted Access for Cleaning Work at
4600 Fairfax Drive, Arlington, Va.

Dear Mr. Colby:

Respectfully request that I be granted access, under CIA escort, to work on the charforce on the top eight floors at 4600 Fairfax Drive, Arlington, Virginia, which is leased by the Agency which declared it a secured area. The background concerning my request is set forth below.

I am a citizen of the Republic of Korea who entered the United States on 29 November 1974 and who enlisted in the US Army on 10 June 1975. I applied with the Immigration and Naturalization Service for immediate American citizenship based upon membership in the armed forces during a designated period of hostilities. However, due to a backlog in handling applications, the service has yet to process my naturalization and probably will not do so before April 1976, according to estimates by the Los Angeles office.

STATINTL

your Agency's security guards will not permit non-citizen charpersonnel in the area, even if they are under escort by Agency security forces. This lack of access bars me from employment with the firm for the foreseeable future. Incidentally, I am undergoing a National Agency check given by the Department of the Army for all recruited soldiers.

You Office of General Counsel says the American citizens, some of whom have no clearance whatsoever, are permitted in the secured area if they are under CIA escort. An inequitable criterion is being used under the circumstances to determine who has escorted access to the area where the cleaning firm wishes to put me to work. Had the Immigration & Naturalization Service been caught up with its workload, I would now be a US citizen, and thereby eligible for access. I would even go so far as to state that denial of due process of law would exist where uncleared US citizens are allowed escorted access to secure areas while corresponding non-citizens are denied access. I fully appreciate the very real potential for serious security leaks through charpersonnel but the application of the citizenship criterion for escorted access seems to be an ineffective means to achieve security.

Honorable William E. Cobby
16 December 1975

Respectfully request that I be granted escorted access to the top floors of the premises at 4600 Fairfax Drive, so that I may be permitted to supplement my income by work which will be useful to the defense of my adopted country.

Sincerely,

Private First Class
U.S. Army
